## CAREER OBJECTIVE

I am an aspiring data analyst and web developer with a strong interest in solving problems, turning data into meaningful insights, and creating user-friendly websites. I have experience with tools like **SQL**, **Excel**, data visualization software, as well as web development technologies like **HTML**, **CSS**, **JavaScript**, and **PHP**. I aim to use my skills to help businesses make better decisions, grow, and improve their online presence. I am eager to learn new things, work on innovative projects, and build my career in a dynamic and supportive environment.

## EXPERIENCE

### Training:

Web Development Training Softanic Solutions Private Limited, Jalgaon. I successfully completed a training course on web development, focusing on **HTML**, **CSS**, **JavaScript**, and **PHP**. Gained hands-on experience in developing web applications, improving user interfaces, and writing clean, maintainable code.

### Freelancing:

#### Full-Stack Web Developer

- Built and deployed dynamic, responsive websites using **HTML**, **CSS**, **JavaScript**, and **PHP**.
- Delivered customized solutions to meet diverse client requirements, ensuring high-quality results and client satisfaction.
- Projects:
  - [Dr. Shriram Shivajirao Ragad's Website](#): A professional website showcasing services and achievements.
  - [Infoplanet Coding Class](#): An educational platform highlighting coding courses and training programs.
  - [Krushu Bhushan](#): A website designed to promote agricultural products and services.
  - [CodeVed Manual2Soft](#): A project focused on software solutions and services.

- **Technologies:** HTML5, CSS3, Bootstrap.
- **Database / Framework** PostgreSQL, MySQL
- **Tools:** VS Code, GitHub.

## PROJECTS

AgroTech: Modern Farming Endorsement System

Developed a digital platform to support farmers by facilitating crop sales, equipment trading, land exchanges, and access to educational resources and government schemes. The system offers a user-friendly interface. Key features include crop and equipment management, community forums, event participation, and admin-controlled user and product management. The project promotes farming efficiency, collaboration, bridging the gap between traditional methods and modern technology.

## CERTIFICATIONS

- **Web Development Course** : HTML, CSS, JavaScript, and PHP  
Gained hands-on experience in designing and developing dynamic websites, including front-end and back-end development. Learned to create interactive and responsive web pages while working with server-side scripting using PHP.
- **PostgreSQL: Become an SQL Developer**  
Mastered SQL concepts and database management with PostgreSQL. Learned to write advanced queries, design database schemas, and optimize performance for efficient data handling.
- **Microsoft Excel**  
Advanced proficiency in Excel for data analytics, including functions, pivot tables, macros, and complex formulas to analyze and interpret data effectively for business insights.
- **Power BI**  
Developed expertise in creating interactive dashboards and visualizations. Mastered data modeling, transformation, and integration from multiple sources to provide actionable insights for decision-making.
